Mr. [REDACTED]

I have received some play therapy notes on your children along with other materials. I would like to review all of the Play Therapy records (to include, intake paperwork, all therapy reports/notes, all digital images, all recording audio/video, along with a HIPAA release). I would also like the Therapist's name and contact information so an interview can be conducted. Can you also supply the name of the Play Therapy company? I would like to have all this information so it can be reviewed and further investigated. My hopes are to find more information so we can submit this case for prosecution. Please let me know how soon you can provide the requested information.

Thank you,

Hello Detective Borquez,

I wanted to get you the therapist phone numbers right away, along with their place of businesses and Web sites. The recordings will take us a few days to get them on a memory stick and mail out. I could send out each one individually, but that will be a pain for you to deal with.

Our first play therapist is Jennifer [REDACTED] She has a PhD in Psychology, is a RPT (Registered Play Therapist) and LPC (Licensed Professional Counselor who specializes in mental health). She is now based in [REDACTED]
[REDACTED] Her Web site [REDACTED]

Previously before her move, she was practicing at [REDACTED]
